REMARKS

A Decision Under 37 CFR 1.78 dated March 22, 2005 was received for the above-referenced patent application. The Petition under 37 CFR 1.78(a)(3) was dismissed without prejudice because Requirement (1) had not been satisfied because the reference to the prior filed application included in the "Second Preliminary Amendment" filed on January 9, 2004 did not explicitly state whether the instant application is a continuation, continuation-in-part, or divisional application of the international application. The Specification has now been amended to claim that this application is a continuation of the international application. Therefore, we request reconsideration of the March 22, 2005 Decision and that the Petition Under 37 CFR 1.78(a)(3) be granted.

The U.S. Patent and Trademark Office is authorized to charge any additional fees incurred as a result of the filing hereof or credit any overpayment to our deposit account #19-0120.

Respectfully submitted,
LUTHJE, Holger et al.
